

### **How do you play with your chatterbox?**

Here are my instructions but what other variations are there?

1. Ask a friend to pick one of the words on the outside of the chatterbox. You then open and close the chatterbox as you spell out the word. If it was a number you would count.

Eg. Subtract – open chatterbox and say “S”, close chatterbox and say “U”, open chatterbox and say “B”, close chatterbox and say “T” etc.

2. Your friend picks one of the questions and answers it.

3. If they are right – you do the action under the flap.

If they are wrong – they do the action under the flap.

Or you could all do the action under the flap together.

Be **Bold, Challenging and Creative**....but most of all have FUN!
